Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

ICPSR PROCESSING NOTE FOR # 03012-0001
Chinese Household Income Project, 1995

1) **Value Labels:** In the original documentation variable **B106** lacks a label for a value of "7". In the data there was found to be a value of 7 and is labeled **unknown code.**
2) **Value Labels:** In the original documentation variables **B107, B108, B109, B110, B111, B113, B116, B116C B11CB, B116E, B116G, B116H, B117, B118, B118, B120,** and **B124** lack a label for a value of "0". In the data there was found to be a value of 0 and is labeled **unknown code.**
3) **Value Labels:** In the original documentation variable **B118** lacks a label for a value of "8". In the data there was found to be a value of 8 and is labeled **unknown code.**

ADDITIONAL USER NOTES

ICPSR 03012

Chinese Household Income Project, 1995

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Chinese Household Income Project, 1995

Rural Individual Data

A1	A1
Location:	1-12 (width: 12; decimal: 0)
Variable Type:	numeric
Question:	Combined Code for province plus city or county
	Based upon 34739 valid cases out of 34739 total cases.

- Mean: 388571.04
- Median: 411223.00
- Mode: 513433.00
- Minimum: 110221.00
- Maximum: 622923.00
